ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

INTRODUCTION

THE CONCEPT OF DISCOVERY

Ever since it first took to the streets, mud tracks and deserts in 1989, Discovery has blazed its own trail. From Alaska to Zambia, it has become synonymous with capability and versatility, whether off-road or in the city. Discovery takes those characteristics, together with several innovations pioneered by Land Rover, to uncharted territories.

Discovery is a quantum leap forward in SUV design. A radical and sharply focused approach to embodying Land Rover's vision of the most versatile and capable SUV.

Discovery combines the flexibility of a beautifully crafted full-size seven seat interior, packed full of ingenious design details, with dramatic proportions, clean modern lines and a dynamic silhouette.

So wherever you want to go, whoever and whatever you want to take, Discovery is every vehicle you'll ever need.

Vehicle shown right is HSE Luxury in Namib Orange.

DISCOVERY – THE FACTS

Form, function and exemplary levels of finesse are brought together to help create one of Land Rover's most compelling vehicles to date. Its inherent strength and off-road capabilities are matched only by its bold contemporary looks and alluring touches of luxury. Inside, astute use of space coupled with high-quality design and use of premium materials enhance the vehicle's bold horizontal and vertical lines.

The versatility of the cabin is highlighted by the easily configurable optional seven seat layout and plentiful stowage, with clever use of space and refined comfort.

SEVEN FULL-SIZE SEATS WITH INTELLIGENT SEAT FOLD

Discovery has the option of three rows of seats with Intelligent Seat Fold, allowing you to configure the second and third row seating using switches located in the loadspace or on the main Touchscreen. See page 19 for details.

ACTIVITY KEY

The Activity Key lets you live life to the full. Housed in a robust and fully waterproof wristband, it allows you to pursue a range of activities from sailing to skydiving, safe in the knowledge that your vehicle is always protected. See page 65 for details.

POWERED INNER TAILGATE

The first of its kind, this hands-free system provides a seating and loading platform and can also be used as a load retention barrier for when the tailgate is open. See page 22 for details.

UNRIVALLED TOWING

Over the years, Discovery has earned many accolades around the world for its towing capabilities, which is why so many would naturally expect this vehicle to live up to the most demanding expectations. It doesn't disappoint. Discovery takes it to a new level, delivering an impressive towing capacity of up to 3,500kg, ensuring it measures up to the vehicle's proud DNA. See page 56 for details.

SUPREME CAPABILITY

The vehicle's lineage and DNA are without question. Its all-terrain capability, wading ability and features such as Terrain Response 2 ensure Discovery is always ready to get out there and tackle whatever comes over the horizon, no matter where that happens to be. See page 29 for details.

For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your nearest Land Rover Retailer.

Vehicle shown right is HSE Luxury in Namib Orange.

UNCOMPROMISED LOADSPACE CAPACITY

With over 2,400 litres of loadspace, ideal for wet or dirty gear, and the flexibility of seven seats, Discovery is every vehicle you'll ever need. See page 24 for details.

DRIVER ASSISTANCE FEATURES

Whether you're off-road or in the city, our Driver Assistance technology, available on Discovery, will ensure a seamless driving experience. Driver Condition Monitor detects when you show signs of drowsiness, whilst Adaptive Cruise Control with Steering Assist automatically moderates the steering, braking and acceleration of your vehicle. Standard safety features include Rear Camera and Lane Keep Assist. See pages 48-53 for details.

CLEVER STOWAGE

From the fold-down stowage behind the climate controls, to the upper and lower glovebox and a comprehensive space below the centre console cupholders, Discovery has stowage in places you simply would not expect. See page 21 for details.

INTERIOR COMFORT

Passengers enjoy optimum comfort, unparalleled views and benefit from new Cabin Air Ionisation technology, helping improve the air quality within the vehicle cabin. See page 61 for details.

INTUITIVE CONNECTIVITY

Discovery features the very latest suite of technologies, including InControl, a raft of USB ports and the latest in infotainment to keep you and your passengers connected and entertained. See page 42 for details.

DESIGN

EXTERIOR

The vehicle's exterior design is a revolutionary re-imagining of Discovery for the next generation.

Discovery is beautifully proportioned for a full-size SUV, with sleek, wrap-around headlights and tail lights combining with short front and rear overhangs to reduce visual length. A fast windscreen angle, rising belt line and elegant, smoothly contoured shape result in a streamlined and dynamic form which combines aerodynamic efficiency with class-leading interior space. The body-coloured c-pillar, stepped roof and asymmetric element on the rear number plate panel all refer to the rich lineage of previous Discovery design.

Clean flush elements, a dynamic rising waistline and wrap-around lights convey a strong sense of modernity. Cleverly designed LED lights have been developed to wrap around the side of the vehicle to enable the indicators to be more visible, improving safety. LED lights are fitted as standard on SE, HSE and HSE Luxury.

Discovery introduces a new level of refinement as demonstrated by its beautifully crafted and sculpted surfaces. The distinctive roof and feature lines rising towards the rear of the vehicle give it an assertive, recognisable stance that is further enhanced by the front and rear graphics.

Sophisticated and urbane, Discovery epitomises the most compelling contemporary British design.

INTERIOR

The highly desirable interior is a re-imagining of the classic Discovery design elements with the striking use of strong horizontal and vertical lines connecting through the main fascia beam. The use of materials such as premium leather, authentic wood and metal finishers, coupled with focused craftsmanship and precision, create an air of cultured modern living.

The 10" infotainment Touchscreen helps you connect to the outside world and puts a wealth of entertainment and information at your fingertips. The clever use of both seating design and stowage space helps deliver class-leading capability for you, your family and friends.

The new 12.3" Interactive Driver Display ensures you're always entertained, informed and connected. See page 39 for details.

UNCOMPROMISING ATTENTION TO DETAIL

An eye for the minutiae. The finest materials. These are the qualities that our designers have carefully considered to help shape Discovery's interior. Added to which, sumptuous leather, beautifully finished handcrafted wood veneers, Noble Chrome details, Brushed Aluminium finishers and crafted stitching can be incorporated throughout the interior for added luxury.

Interior shown is HSE Luxury in Light Oyster/Espresso.

SEVEN FULL-SIZE SEATS

Discovery's optional seven full-size seats truly exemplify comfort and versatility. Divided across three rows and readily deployable, no other vehicle in its class is so well appointed. For instance, the second row enjoys a 60:40 slide and recline configuration, coupled with a load-through facility. Stadium seating ensures everyone can see the road ahead in the greatest comfort whilst the stepped roof allows for greater headroom in the second and third rows; such clever use of space ensures everyone travels first class. Added to which, there are a number of comfort features available, including heated seats across all three rows and cooled seats on the first and second row: please refer to page 92 for a full list of available options.

INTELLIGENT SEAT FOLD

On HSE and HSE Luxury, where third row seats are specified, there's a choice of ways you can easily deploy the seats with our optional Remote Intelligent Seat Fold: from the Touchscreen, or via switches located in the loadspace.

The powered seat folding mechanism uses an intelligent control system which ensures the seats, including the headrests, fold away seamlessly, safely and conveniently. The system understands when seats are occupied or have heavy items on them and, when folding, automatically adjusts their position to prevent a conflict.

1 Second row legroom 954mm

2 Third row legroom 851mm

SPACE AND COMFORT

Each and every passenger in Discovery enjoys a truly comfortable ride, with a generous amount of legroom offered. Those in the second row will find they have 954mm, whilst in the optional third row, a plentiful 851mm is provided.

Even a team of seven adults can travel in comfort. Added to which, when slide and recline is specified, you can configure the second row to optimise the available room even further.

Cubby box stowage with an optional chiller compartment¹

Centre console stowage behind the climate controls²

Cupholders with additional stowage beneath²

Upper and lower glovebox³

Push operated hook²

Third row stowage with lid

STOWAGE

Discovery is brimming with clever spaces in which to stow away all those electronic devices and travel guides. From the upper and lower glovebox on SE, HSE and HSE Luxury, to central armrest stowage with an optional chiller compartment¹ and space for multiple tablets, you'll find space in places you simply wouldn't expect.

The central armrest cubby box can hinge back 180° to create a flat tray, should second row passengers require more stowage, whilst the door bins can also accommodate 1 litre bottles in the front and 0,5 litre bottles in second row.

Standard on HSE and HSE Luxury, a neatly integrated push-operated hook to hang a small shopping bag sits flush in the front passenger footwell when not in use.

When optional third row seats are selected, third row passengers benefit from individual storage spaces, including one within the side panel. In fact, across all rows there's more than enough space for even the most demanding of families.

¹Standard on HSE Luxury. ²Only available on HSE and HSE Luxury. ³Not available on S.

POWERED INNER TAILGATE

Pioneered by Land Rover, Discovery features a powered inner tailgate, which when deployed can provide a platform for use at social and sporting events, coupled with greater protection from the elements. This platform also allows for easier loading and acts as a retainer when the loadspace area is filled. Powered inner tailgate is fitted as standard on HSE and HSE Luxury, and available as an option on S and SE.

POWERED GESTURE TAILGATE

Powered gesture tailgate allows you to operate the tailgate (both to open and close) from outside the vehicle without needing to physically touch the vehicle or the smart key.

Provided that the smart key is detected, the tailgate may be operated by a kicking gesture underneath the rear of the vehicle.

Two sensors mounted on either side of the tailgate allow kerbside operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss. Powered gesture tailgate is available as an option on SE, HSE and fitted as standard on HSE Luxury.

Additionally, a button located inside the tailgate or on the smart key allows the tailgate to be closed automatically with powered tailgate.

LOADSPACE CAPACITY

With a luggage-devouring 2,406 litres of space behind the first row of seats, Discovery welcomes a greater load than any other SUV in its class. There's a generous 1,137 litres of space behind the second row of seats. Even when you utilise all seven seats you can still fit up to three cabin bags behind the optional third row. When it comes to carrying any load, having the option to fold all second and third row seats gives you more options, making life that bit easier.

Loadspace capacity figures represent seven-seat vehicles fitted with Two or Three-zone Climate Control only. Figures shown in brackets represent vehicles with five seats, with extra storage beneath the loadspace floor. Vehicle shown is HSE Luxury in Silicon Silver. Interior shown is HSE Luxury in Light Oyster/Espresso.

DRIVING CAPABILITY

TESTING

Before any vehicle can carry the Land Rover badge, it must complete a series of rigorous tests to establish the very highest levels of luxury, performance and capability.

SUSPENSION

You're unlikely to push any Land Rover harder than we have. For an unrivalled breadth of dynamic capability, both on and off-road, the vehicles have been exposed to 10 years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

Discovery was developed in state-of-the-art wind tunnels and a suite of climatic chambers to recreate some of the most challenging aerodynamic conditions it will face. Only by pushing all systems to their limits do we develop true reliability.

HOT AND COLD CLIMATE

In real-world environments and our climate chambers, we freeze vehicles to -40°C and bake them to 50°C. Key functions and systems are then scrutinised to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai's unforgiving desert sands, we ensure our legendary all-terrain performance is innate in every vehicle. Prototypes are developed across approximately 8,500km of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the 'neutral sound' of our semi-anechoic chamber we precisely expose the cabin to a range of frequencies and vibrations, making certain that Discovery sounds refined at every speed and across every surface.

MONSOON

Our water testing facilities ensure each vehicle can enter and exit a body of water without a single droplet entering the cabin. In the monsoon simulator, each one is drenched with some 85,000 litres of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights.

ALL TERRAIN TECHNOLOGY

Discovery not only looks truly at home in the city, but also drives impeccably off-road. Its optimised geometry, coupled with unique Land Rover technologies, ensure it delivers class-leading all-terrain capabilities.

TERRAIN RESPONSE

With over 65 years of all-terrain expertise, this vehicle has Land Rover capability at its heart. Our unique Terrain Response* systems enable the driver to optimise the vehicle's engine, gearbox, centre differential and chassis systems to match the demands of the terrain, by selecting one of the easily identifiable driving modes. It also includes additional Rock Crawl Mode when your vehicle is specified with electronic air suspension and twin-speed transfer box.

TERRAIN RESPONSE 2

The optional Terrain Response 2* system enhances this even further by monitoring driving conditions and automatically selecting the driving modes to achieve the best possible chassis and powertrain set up for the conditions.

-  General Driving
-  Sand
-  Grass, Gravel, Snow
-  Rock Crawl
-  Mud & Ruts

*Not available on S models. Not available with Si4 engine.
Features and their availability may differ by vehicle specification and market.
Please see pages 88-103, or contact your nearest Land Rover Retailer, for more information.
Vehicle shown left is HSE Luxury in Namib Orange.

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control* (ATPC) is a state-of-the-art optional system that enables drivers to set and maintain a steady speed in challenging conditions.

Operating like a cruise control system, it functions at very low speeds between 2km/h and 30km/h, enabling the driver to maintain full concentration on steering and finding a path through obstacles.

Developed by Land Rover's industry-leading all-terrain specialists, the system works seamlessly alongside the Terrain Response 2 and All Wheel Drive (AWD) traction and braking systems.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings, with gentle braking achieving a reduction in speed.

HILL DESCENT CONTROL

Land Rover's patented Hill Descent Control (HDC) is a standard feature. It assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel.

Hill Launch Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline.

The vehicle also utilises **Gradient Release Control (GRC)** which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

WADE SENSING

Discovery's improved geometry enables a significant improvement in wading capability when compared to its predecessor.

With a wading depth of up to 900mm, whether crossing streams, fords or flooded areas, the optional Wade Sensing feature can prove invaluable. Available as an option on HSE and HSE Luxury.

Unique to Land Rover, sensors located in the door mirrors give the driver pictorial real-time information about the water's depth in relation to the vehicle, as well as maximum wading capability via the Touchscreen.

PERMANENT ALL WHEEL DRIVE SYSTEMS

Discovery features a choice of intelligent, permanent Land Rover All Wheel Drive (AWD) systems to deliver unrivalled all-weather and all-surface capability. You can select from the following systems depending on capability requirements:

SINGLE-SPEED TRANSFER BOX (HIGH RANGE ONLY)

This system has a single set of high range, road biased gears with the intelligence to sense wheel slip and move torque to the other axle to provide additional traction. It normally delivers 42 percent drive to the front axle with 58 percent drive biased to the rear axle. The centre differential is reactive to wheel slip on one axle and can change the amount of bias to add more torque and traction to the other axle to support. This system is standard on Si4 Ingenium engines, SD4 Ingenium and TD6 S models.

TWIN-SPEED TRANSFER BOX (HIGH/LOW RANGE)

An additional set of lower gears can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing. This system gives you precise speed and control in such instances. The heart of the twin-speed system is the electronic centre differential that offers a 50:50 torque split between front and rear axles with the ability to pre-emptively lock the axles before slip commences. This system is standard on SD4¹ Ingenium engines, TD6¹ and Si6 engines.

ACTIVE REAR LOCKING DIFFERENTIAL

The Active Rear Locking Differential – an option on SD4, TD6² and Si6² engines when the vehicle has air suspension and a twin-speed transfer box – offers an additional benefit of controlling the slip between the left and right wheels on the rear axle. This can be especially useful low-grip conditions such as on wet grass, where the vehicle monitors the slip and torque between front and rear axles and also from one wheel to another on the rear axle to deliver effortless capability.

SUSPENSION

COIL SUSPENSION

Standard with the SD4 Ingenium engine, TD6 and Si4 Ingenium engine S models, Discovery has a fully independent coil sprung suspension system that combines double wishbones at the front with an advanced multi-link rear suspension design to create an agile and responsive chassis.

Ride comfort and stability when heavily laden are optimised through the use of additional secondary springs, incorporated within the rear suspension.

ELECTRONIC AIR SUSPENSION

A sure-footed, composed drive is completed by the latest four-corner air suspension which provides exceptional wheel articulation and poise.

Capable of taking on tough situations, this system is designed to keep Discovery stable no matter how rough the terrain. For unprecedented ride quality, it switches heights seamlessly when necessary.

Air suspension also allows for innovative new access features to enhance versatility and ease of use.

Automatic Access Height is a feature which automatically lowers the ride height by 40mm when the vehicle is parked.

Rear Height Adjust allows the use of switches in the loadspace or on the key fob to lower the rear ride height. See page 56 for more information.

Standard with SD4 Ingenium², TD6², Si4² Ingenium engine and Si6 engines.

¹Optional on S models. ²Not available on S models.

Features and their availability may differ by vehicle specification and market. Please see pages 88-103, or contact your nearest Land Rover Retailer, for more information.

Vehicle shown left is HSE Luxury in Namib Orange.

EFFICIENT TECHNOLOGIES

SUSTAINABLE CONSTRUCTION

The aluminium alloy used for much of Discovery's construction is from a high level of recycled aluminium. Using significantly less energy than primary aluminium to produce, it minimises the vehicle's environmental impact.

STOP/START

Discovery engines are all available with Stop/Start¹. This system shuts down the engine when you come to a complete halt and restarts the engine immediately when required, helping to save fuel, especially during urban driving.

LIGHTWEIGHT MATERIALS

At every stage of the development process, engineers maximised weight saving across all the vehicle's elements. This produces an optimum balance between best performance and weight saving for greater efficiency. Discovery adopts an advanced all-aluminium body structure, delivering significantly reduced weight, improved performance and enhanced sustainability. Its tailgate is made from a lightweight plastic composite material which is also very stiff and strong, whilst high-precision lightweight magnesium castings are used for some of the body and chassis components.

LOW FRICTION TECHNOLOGIES

Discovery's petrol and diesel engine range uses smart coating technologies on pistons, needle roller bearings and other mechanical parts. This helps to reduce friction, especially at low engine temperatures, so the vehicle performs at its highest level of efficiency.

ADVANCED AERODYNAMICS

The modern streamlined design has been carefully optimised using advanced Computational Fluid Dynamics software and a state-of-the-art wind tunnel. This has led to an improvement of up to 15 percent drag reduction when compared to its predecessor whilst still maintaining stadium seating and two additional seats in the optional third row. An enhanced rear spoiler has been designed with slots to direct airflow over the tailgate and minimise rear screen soiling, producing a reduction in drag.

Vehicles equipped with electronic air suspension benefit from speed lowering where the vehicle automatically lowers by 13mm to reduce drag when cruising at motorway speeds.

Discovery is the first Land Rover to optimise airflow past the front wheels, by creating an 'air curtain'² by feeding air to the inner wheelarch from ducts in the front bumper. The pressure change in the wheelarch helps to reduce drag and improve air flow down the vehicle's sides.

Vehicles equipped with electronic air suspension benefit from speed lowering where the vehicle automatically lowers by 13mm to reduce drag when cruising at motorway speeds.

¹Features and their availability may differ by vehicle specification and market. ²Only available with SD4 Ingenium engine.
Vehicle shown left is HSE Luxury in Silicon Silver.

ON-ROAD DYNAMICS

Discovery has been designed to deliver a confident, comfortable and engaging driving experience to make the miles go by virtually unnoticed.

With its wide-spaced double-wishbone design at the front and advanced multi-link layout at the rear, the suspension delivers more responsive handling without compromising Land Rover's hallmark all-terrain capability.

Dynamic Stability Control (DSC) monitors Discovery's dynamic behaviour, and intervenes if the system determines that the vehicle is not responding according to the driver's inputs.

The DSC system operates by reducing engine torque and/or applying the brakes on selected wheels to correct the vehicle's cornering attitude and in addition can counteract understeer or oversteer conditions effectively. This system is standard on all models.

Discovery's sublime ride quality is heightened further by such features as Electronic Power Assisted Steering (EPAS), a variable ratio system and speed-sensitive steering. Standard on all models, EPAS is integrated into driver and chassis systems, helping to reduce the engine load to aid efficiency and deliver a confident and intuitive drive.

The variable ratio system has been tuned by Land Rover engineers to provide ease of control, on or off-road, when driving in a straight line or when turning. Different gear ratios within the steering rack help to reduce steering sensitivity when driving straight, but compensate for less steering input when turning.

Speed-sensitive steering increases the weight and feel of the steering as your speed increases to give stability and a greater feel of confidence. It also assists you at lower speeds to aid manoeuvrability by lightening the feel of steering. This system is standard on all models.

TECHNOLOGY

INFOTAINMENT

Unique to Land Rover, the new InControl infotainment system, Touch Pro, not only looks like no other, it performs like no other. Delivering a wealth of information and entertainment, it features the most intuitive and advanced integrated technologies to ensure everyone can make the most of their journey.

Search 'Discovery Infotainment System' for more details.

TOUCH PRO

Touch Pro is our state-of-the-art infotainment system that connects you to your world, delivers a raft of entertainment options and puts all the information in one place. The optional Touch Pro Dual View System¹ is also powered by the 10" high-resolution Touchscreen and allows the driver and passenger to view completely independent display content. For example, the driver can use the Satellite Navigation system, while the front seat passenger is able to watch a DVD or Digital TV², where fitted. One set of WhiteFire[®] digital wireless headphones is also included.

INTERACTIVE DRIVER DISPLAY

Discovery ensures you're always entertained, informed and connected. It features a 12.3" high-definition Interactive Driver Display³ that can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics.

HEAD-UP DISPLAY⁴

Without distraction or the need for you to take your eyes off the road, our enhanced next generation Head-up Display is an option that presents key vehicle data such as your speed, gear position and navigation directions in the most innovative way. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touch Pro Touchscreen including phone, as well as information and guidance for off-road driving via the All Terrain Info Centre. The feature can be turned on and off dependent on driver preference.

8" REAR SEAT ENTERTAINMENT

The optional Rear Seat Entertainment¹ system provides two 8" screens built into the rear of the front headrests. It includes 'Journey Status', a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination. The system comes with a pair of WhiteFire[®] digital wireless headphones and HDMI, Mobile High-Definition Link (MHL) and USB connections. Passengers can also enjoy their favourite TV shows via the optional Digital TV feature. Digital TV channels can be watched on the 10" Touchscreen² in the front cabin and the Rear Seat Entertainment screens.

¹Optional on HSE and HSE Luxury. ²Digital TV can only be viewed on the 10" Touchscreen when the vehicle is stationary.

³Standard on HSE and HSE Luxury. Optional on S and SE with Navigation. ⁴Only available with solar attenuating windscreen on SE and HSE.

Interior shown left and above is HSE Luxury in Light Oyster/Esspresso.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and Discovery has the option of four different audio systems to bring your music to life:

SOUND SYSTEM

Excellent acoustic range through six speakers and is standard on S models.

ENHANCED SOUND SYSTEM

The 250W Enhanced Sound System features 10 speakers and is standard on SE models and available as an optional upgrade on S models.

MERIDIAN™ SOUND SYSTEM*

Great definition, crystal clear highs and full, deep bass – delivered through this 380W system's careful arrangement of 10 speakers and a dual channel subwoofer. It is standard on HSE and available as an optional upgrade on S and SE models.

MERIDIAN SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of this 825W system's 14 front, side and rear speakers and a dual channel subwoofer. Seamlessly brought together using Trifield™ technology and exclusive to Meridian, Trifield perfectly blends the centre and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger. It is standard on S, SE, HSE and HSE Luxury models.

*Meridian™ Sound System features an optical disc drive (CD). When selected as an option on S and SE models, the optical disc drive (CD) is not fitted.

Interior shown with Meridian™ Surround Sound System 825W with 14 speakers and a dual channel subwoofer.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Land Rover's audio partner Meridian has pioneered many firsts including active speakers and the world's first digital surround sound processor.

Meridian's audio technology input has helped ensure that Discovery is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds.

The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian's Cabin Correction tailors the sound experience to the precise acoustics of Discovery's interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD™

Exclusive to Meridian, Trifield blends the centre and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

	UNIQUE MERIDIAN TECHNOLOGY	SPEAKERS	DUAL-CHANNEL SUBWOOFER	WATTS
SOUND SYSTEM	N/A	6	N/A	125
ENHANCED SOUND SYSTEM	N/A	10	N/A	250

Meridian is a registered trademark of Meridian Audio Ltd.
Trifield and the "three fields" device is a trademark of Trifield Productions Ltd.
Features and their availability may differ by vehicle specification and market.

CONNECTIVITY

InControl is Land Rover's suite of standard and optional features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. With a selection of apps, even when you're away from your vehicle, some of the InControl features stay with you, making sure the Land Rover experience is more enjoyable than ever.

Search 'Discovery Technology' for full details.

OPTIONAL FEATURES

VOICE RECOGNITION SYSTEM

Understands clear spoken instructions, so you can concentrate on the road ahead without any distractions. Voice Recognition is a standard feature with Navigation Pro.

NAVIGATION PRO

Available as an option on S and fitted as standard on SE, HSE and HSE Luxury, Navigation Pro allows you to save your favourite places, use pinch-to-zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics.

CONNECT PRO PACK*

Connect Pro consists of 4G Wi-Fi Hotspot and Pro Services, and is designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey whilst remaining connected to the world.

Pro Services include:

- **Real Time Traffic Information** – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **Online Search** – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- **Planning Routes and Door-to-Door Routing** – Before setting off, use the optional Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination – a true door-to-door experience which includes public transport options.
- **Share ETA** – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- **Satellite View** – There may be times when you want to get the context of your surroundings from overhead. With Connect Pro you can switch to satellite view with a single tap.

*Connect Pro requires a SIM with a suitable data contract. Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with a suitable data contract. Remote Premium contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. InControl features, options and their availability remain market dependent – check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations.

InControl Apps and Remote App will need to be downloaded from the Apple/Play Store.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

OPTIONAL FEATURES CONTINUED

CONNECT PRO PACK CONTINUED

- **Commute Mode** – Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest.
 - **Online Media** – Allows for the aggregation of numerous content providers and their personalised content – such as Deezer and Tuneln – that gives access to more than 40 million music tracks and four million on-demand programmes and podcasts. For the first time, these can be directly streamed from the vehicle without the need for a smartphone – providing a seamless and integrated experience.
- Remote Premium¹** app provides upgraded information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or the Apple Watch®, this service includes:
- **Remote Lock/Unlock** – Lock or unlock your doors remotely with the click of a button.
 - **Remote Climate** – Prepare your Land Rover in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.
 - **Beep/Flash** – This feature turns on your Land Rover's hazard lights and dipped headlights, and sounds an audible alert to help you locate your vehicle in a crowded car park.
 - **Journey Tracking** – This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting.
 - **Vehicle Status Check** – Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

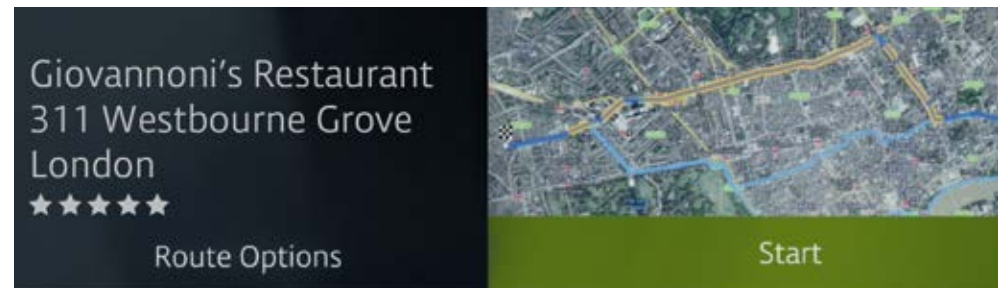

¹Remote Premium contains subscription services that can be extended after the initial term advised by your Land Rover Retailer.

InControl features, options and their availability remain market dependent – check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store.

CONNECT PRO PACK CONTINUED

InControl Apps technology allows vehicle-optimised apps on your Android™ or Apple® smartphone to be controlled through the vehicle's Touchscreen, including contacts, calendar and music player via a USB cable to the USB slot. You can also download third-party apps offering a vast range of services. Applications include:

- **Tile²** – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth® tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle's Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.

²Requires InControl Apps.

Bluetooth tracker tiles must be purchased separately. ©2016 Tile Inc. Tile and the Tile design are trademarks of Tile, Inc.

INTERIOR POWER POINTS

Discovery is packed with the latest innovative technologies and USB charging points are available for all three rows of seats. So no matter where they sit, every single passenger can stay entertained – whether on their tablets, mobile phones or other devices*.

It includes a 12V port in the upper glovebox, one in the instrument panel, a USB port in the centre console, one 12V and two USB ports in the cubby box, up to two 12V or USB ports in rear centre console, two USB ports in the row three stowage, one 12V in the luggage compartment, and two additional USB ports when 8" Rear Seat Entertainment is fitted.

A Wi-Fi Hotspot system is also available as part of the Connect Pro Pack.

*Fitment of USB ports and 12V locations varies by trim level.
Interior shown is HSE Luxury in Light Oyster/Espresso.

DRIVING TECHNOLOGY

DRIVER ASSISTANCE

EASIER AND SAFER

From negotiating city traffic or the motorway to providing additional safety for you and your passengers, you'll find a range of features designed and engineered to heighten your enjoyment of the vehicle.

Discovery offers the most advanced technologies to deliver intuitive and easy parking solutions. Whether reversing, parallel parking or getting into or out of tight spaces, these features make life easier.

Available as standard, optional or as part of an optional pack.

Search 'Discovery Driver Assistance' for more details.

STANDARD

Front and Rear Parking Aid

Front and Rear Parking Aid helps make manoeuvring even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles.

Rear Camera provides improved visibility when reversing. This valuable parking aid also helps when hitching a trailer. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible.

Cruise Control with Speed Limiter¹ allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.

Driver Condition Monitor detects if you're starting to feel drowsy and gives you an early warning when you need to take a break.

¹Standard on S and SE models.

STANDARD

Lane Keep Assist

Lane Keep Assist detects when your vehicle is unintentionally drifting out of your lane, and applies a corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Adaptive Cruise Control with Stop & Go² will keep your vehicle a safe distance from the one in front should it slow or stop when you're cruising on the motorway or travelling in slow-moving traffic. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. In stop-start traffic, Adaptive Cruise Control will automatically resume following the car in front. The system can be activated from 20km/h and once activated will operate between 0-200km/h.

OPTIONAL

360° Surround Camera

360° Surround Camera uses four digital cameras discretely placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various manoeuvres from parking by a kerb, to getting in and out of tight spaces and junctions.

²Standard on HSE and HSE Luxury models.

OPTIONAL PACKS

Optional packs are available featuring a range of technologies to enhance the driving experience. Park Pack enables you to park and manoeuvre safely and more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles, while Drive Pack makes every journey safer and more relaxing. The Drive Assist Pack contains the most comprehensive suite of drive and park technologies.

PARK PACK¹

Park Assist

Park Assist makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed with the brake and accelerator pedals. Graphics and notifications guide you through the manoeuvres. Park Assist will also steer you out of a space, taking all of the stress out of parking.

Rear Traffic Monitor is particularly useful when reversing out of a parking bay. The system warns you of vehicles, pedestrians or other hazards approaching from either side of your vehicle and will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed.

360° Parking Aid

360° Parking Aid gives you complete confidence when manoeuvring in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles.

Clear Exit Monitor alerts passengers leaving the vehicle from the rear doors to any approaching cars, cyclists or other hazards. If an incoming obstacle is detected, a warning light will flash on the door.

DRIVE PACK²

Adaptive Cruise Control with Stop & Go

Adaptive Cruise Control with Stop & Go See page 49 for description.

High-speed Emergency Braking detects when a potential frontal collision with another vehicle may occur and displays a forward alert to warn the driver to brake. If the driver doesn't react, the vehicle will deploy the brakes in order to reduce the severity of the possible impact. High-speed Emergency Braking is ready and active from 10km/h to 160km/h.

Blind Spot Assist

Blind Spot Assist can help prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a small warning light illuminates in the corresponding wing mirror and a corrective steering torque encourages you to guide your vehicle away from the approaching vehicle.

²Only available on S and SE models. Standard on HSE and HSE Luxury models.

DRIVER ASSIST PACK

The optional Driver Assist Pack offers a wide range of driver aids including the features found in both the Park Pack and Drive Pack (see pages 50 and 51) together with 360° Surround Camera, Park Assist, 360° Parking Aid, Rear Traffic Monitor and High-speed Emergency Braking. It also includes new Adaptive Cruise Control with Steering Assist which centres the vehicle in lane and maintains a set distance from vehicles ahead, making driving even easier and more comfortable.

FRONT CAMERA 120m

FRONT RADAR 160m

ADAPTIVE CRUISE CONTROL WITH STEERING ASSIST

Adaptive Cruise Control with Steering Assist can be activated from 20km/h and once activated will operate between 0-180km/h. It begins functioning when you depress the "Set" cruise button. A camera and radar then work together to track vehicles and lanes ahead to maintain a central position for your vehicle, and moderate its speed according to the behaviour of the traffic ahead of you. If the vehicle ahead slows, even to a standstill, the feature automatically slows your vehicle, bringing it to a stop where necessary, to maintain a relaxed and composed drive in busy traffic situations.

Adaptive Cruise Control with Steering Assist works with you; as you keep your hands on the wheel anticipating the road ahead, the system assists with steering, braking and acceleration. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated but the Adaptive Cruise Control remains active.

DRIVING AIDS

LOW TRACTION LAUNCH

Discovery features a dedicated launch function¹, which enables the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like ice, snow or wet grass. The software adapts the system's behaviour according to the current Terrain Response setting. When you pull away, you do so with certainty, composure and greater ease.

¹Low Traction Launch features as standard on SE, HSE and HSE Luxury models. Standard on S models when specified with optional Navigation Pro. Vehicle shown is HSE Luxury in Namib Orange.

ALL TERRAIN INFO CENTRE

The All Terrain Info Centre² within your navigation system allows you to view and activate various features and provides access to All Wheel Drive (AWD) information and guidance features for off-road driving.

The Touchscreen displays information about the vehicle's wheels, suspension, transmission and driveline including suspension movements and articulation for vehicles with electronic air suspension.

The system can show the angle and pitch of the vehicle on slopes and inclines, advice on the vehicle's current and maximum wading depth and includes a useful compass together with current latitude, longitude and altitude details.

The Info Centre provides a host of other helpful guidance such as vehicle dimensions, useful for entering tighter spots and can be used to activate additional capability features, such as low traction launch.

Using the optional 360° Surround Camera, the Info Centre can also show the area directly ahead of the vehicle that may not be visible to the driver to help ensure the vehicle isn't damaged on unseen terrain.

²The number of features displayed on the All Terrain Info Centre is dependent upon the specification of the vehicle.
Interior shown above is the HSE Luxury in Light Oyster/Espresso.

TOWING AIDS

Discovery takes towing capability to a new level, with a capacity of up to 3,500kg and a suite of features available to help make towing effortless and assured.

1 ELECTRICALLY DEPLOYABLE TOW BAR

Discovery has the option of an electrically deployable tow bar on SE, HSE and HSE Luxury. This is deployed using a convenient button in the loadspace compartment, or via the Touchscreen.

2 TOW HITCH ASSIST

Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualise the hitching process; it displays the predicted path of the vehicle tow ball towards the trailer tow bar on the Touchscreen. Standard with 360° Surround Camera.

3 NOSE LOAD MEASUREMENT

HSE and HSE Luxury vehicles fitted with the electrically deployable tow bar feature Nose Load Measurement which allows you to quickly and easily measure the nose load of your trailer. This system can be operated via the Touchscreen.

4 REAR HEIGHT ADJUST

Rear Height Adjust allows the use of switches in the loadspace or on the key fob to lower the rear ride height – useful when loading or unloading cumbersome items, or when hitching, unhitching or loading a trailer. This feature is standard when electronic air suspension is specified.

5 TRAILER LIGHT TEST

This industry-first feature enables you to test your trailer lights without leaving your vehicle. When an optional electrically deployable tow bar is fitted, the automatic system is used to pulse the lights in a sequence, and is triggered via the Touchscreen or a button in the loadspace compartment.

6 TOW ASSIST

On the road, the Tow Assist feature helps with reversing by predicting the trailer's direction. You can even choose your trailer's width for precise guidelines displayed on the Touchscreen. Standard with 360° Surround Camera.

Towing feature compatibility may be affected by trailers equipped with LED lights. Please consult your nearest Land Rover Retailer for more information. Towing features and regulations vary by market. Please ensure you comply with relevant legislation in your country. Features and their availability may differ by vehicle specification and market.

Vehicle shown is HSE Luxury in Namib Orange.

ADVANCED TOW ASSIST

Discovery features our most advanced trailer reversing aid to date. Advanced Tow Assist enables the driver to guide a trailer into position by simply following its trajectory on the main Touchscreen, and controlling its path using the rotary knob from the Terrain Response 2 system on the centre console. This is much more intuitive than using the steering wheel because within one field of vision, it effectively steers the trailer along the desired path. This is rather than the opposing direction method which is what happens with conventional steering.

In addition to significantly reducing driver workload, the feature enhances manoeuvrability and safety when reversing, and will alert the driver when approaching a jack-knife situation.

Advanced Tow Assist is only available with electronic air suspension, twin-speed transfer box (high/low range), 360° Surround Camera, 360° Parking Aid and Terrain Response 2. A Land Rover approved tow bar is required in order to enable this feature. Only available with SD4 Ingenium engines, TD6 and Si6 engines. Not available with S models.

360° SURROUND CAMERA

For a complete, all-round view, the optional 360° Surround Camera incorporating T-Junction View helps to see everything clearly on the high-resolution full-colour Touchscreen. Using four digital cameras discreetly placed around the vehicle, the system provides an almost complete 360° view, including a bird's-eye overhead view. It is perfect for more complex driving assignments such as towing a yacht or a horsebox, as features such as Hitch and Load Assist work seamlessly through this system. Along with the ability to display several different views at the same time, this technology can also zoom and pan, ensuring objects and angles normally below the line of sight can be seen.

TRAILER STABILITY ASSIST

Trailer Stability Assist (TSA) is a standard feature that monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations.

Towing feature compatibility may be affected by trailers equipped with LED lights. Please consult your nearest Land Rover Retailer for more information. Towing features and regulations vary by market. Please ensure you comply with relevant legislation in your country.

Vehicle shown is HSE Luxury in Namib Orange.

COMFORT FOR ALL

AUTOMATIC ACCESS HEIGHT

It's always good to arrive in style, so that's why we've introduced Automatic Access Height*. When you pull up at your chosen destination and the ignition is switched off or the seat belts are unclipped, the vehicle lowers by an initial 15mm. Then, as you open the door, it drops to its full access height of 40mm lower, making exit – and entry – that much more relaxed and elegant. The ride height automatically returns to its normal height as you pull away.

HOMELINK® SYSTEM

A universal transmitter fitted to the underside of the interior rear view mirror. This transmitter can be programmed to operate up to three home or office wireless controlled systems, such as garage doors, automatic gates, or security lighting. By replacing the individual remote control units normally required for each system, the driver no longer needs to search the car interior for the correct handset when needed.

CABIN AIR IONISATION

This optional technology can help the wellbeing of both driver and passengers alike by improving the air quality within the vehicle cabin, and reducing allergens, airborne bacteria and associated odours. It does so by ionising particles in the air, making them attract to surfaces and thus helping cleanse the air. It can be switched on or off.

*Standard with electronic air suspension.
Vehicle shown is HSE Luxury in Silicon Silver.

PANORAMIC ROOF

The fixed front and rear or sliding front sunroof and fixed rear panoramic roof, optional on SE, HSE and standard on HSE Luxury, enhance the sense of space in the vehicle's interior and flood it with natural light, benefiting all three rows where specified, as well as providing enhanced views of the surrounding environment.

Importantly, the toughened glass has a dark tint to maintain a comfortable temperature inside the cabin and protect occupants and the interior from the sun's rays. Powered interior blinds are also provided for added comfort when a panoramic roof is specified.

CONFIGURABLE AMBIENT INTERIOR LIGHTING

New levels of ambient refinement and personalisation have been reached with the option of Configurable Ambient Interior Lighting, featuring as standard on HSE Luxury.

This feature allows you to vary the shade, changing the ambience of the cabin to suit your mood. There are five colours in total, ranging from Ice White through to Moon Light and Racing Red.

CLIMATE CONTROL

To ensure that the interior is maintained at the perfect temperature, whatever the weather outside, Discovery features a highly efficient climate control system. The result of an incredibly rigorous development programme, the system has been tested in real-world conditions in temperatures ranging from -40 to +50°C.

Four versions are available, ranging from two-zone manual air conditioning or two-zone automatic systems to a three-zone automatic system, featuring separate temperature controls for driver, front passenger and rear seats. A premium four-zone system is available as an option on all models, which has separate climate controls for driver, front passenger and each side of the rear cabin.

With its independent heating and cooling capability, the four-zone system offers a significant improvement in rear seat luxury, with multiple outlets at face and foot level.

SEATING

Heated front and rear seats are available as an option on S, SE and HSE. Optional first-in-class heated third row seats are also available on HSE and HSE Luxury.

No matter the temperature, heated and cooled front and second row outboard seats are also available as an option HSE and HSE Luxury. This enables both the driver and passenger to set their preferred temperature independently and is controlled via the Touchscreen.

For the ultimate in comfort, optional massage front seats are available on HSE Luxury, allowing both the driver and front passenger to select individual programmes via the Touchscreen. Varying in intensity, there are five settings to choose from; each one delivers a soothing massage to improve both the driver and passenger's comfort.

Features and their availability may differ by vehicle specification and market. Please see pages 88-103, or contact your nearest Land Rover Retailer, for more information. Interior shown is HSE Luxury in Light Oyster/Espresso with Four-zone Climate Control.

ACTIVITY KEY

Activity Key makes living life to the full even easier. For extra convenience, you can wear the Activity Key if you prefer not to carry a key fob. The wristband is robust and fully waterproof, allowing you to enjoy a range of activities – from sailing to skydiving – and keep your car key with you. Activity Key has been tested in a number of extreme environments and is therefore capable in depths of up to 30m of water and in temperatures ranging from -40°C to +85°C.

You can use the Activity Key to lock and unlock your vehicle. When exiting, you can leave the conventional key fob in it and present the Activity Key to the tailgate to lock it. The conventional key fob is then automatically deactivated for security. Enjoy the Activity Key as an optional feature with SE, HSE and HSE Luxury, or as a Land Rover Retailer fit accessory.

ENGINES

8-SPEED AUTOMATIC TRANSMISSION

All petrol and diesel engines in Discovery are paired with the advanced electronically controlled 8-speed Automatic Transmission, which has been tuned by Land Rover engineers to combine silky-smooth shifting with exceptionally rapid response. With eight closely spaced ratios, gear changes are almost imperceptible, with each shift completed in just 200 milliseconds.

Controls include a steering wheel-mounted paddle shift as standard, enabling the driver to take control of gear shifting manually.

The optimised lightweight 8-speed Automatic Transmission is the perfect partner to the torque-rich petrol and diesel engines, and contributes to their notable fuel efficiency.

The transmission is tuned to select torque converter lock-up as early as possible to reduce slip and energy loss. Transmission Idle Control disengages 70 percent of the drive when the vehicle is stationary and the engine is idling in Drive, significantly reducing fuel consumption in urban conditions.

In cold conditions, the transmission selects a lower gear to promote fast warm up and get the engine up to its efficient operating temperature as soon as possible.

Vehicle shown left is HSE Luxury in Namib Orange.

INGENIUM DIESEL ENGINES

SD4 240PS

This is the 240PS high output version of the Ingenium Diesel engine. The series sequential twin turbocharged engine delivers an ideal combination of class-leading performance and superior low-speed driveability.

The engine features a unique piston design and optimised combustion bowls to support the increase in power and torque output. Solenoid injectors, operating at high pressures up to 2,200 bar with an increased injector flow rate of 32.5 percent, are utilised. These open and close at extremely high speeds with ultimate precision to inject fuel for an effortless and more economical drive.

DIESEL ENGINE

TD6 258PS

Discovery features Land Rover's latest generation 3.0 litre Turbocharged Diesel engine. Its high-efficiency design utilises a single turbocharger and ceramic ball bearing technology to reduce friction for smooth, more immediate delivery of power at all engine speeds.

The engine uses an eight-nozzle low-flow injector designed for more precise injection and improved fuel atomisation. Delivering substantial maximum torque of 600Nm, the TD6 is capable of refined and smooth responsive performance.

The intake system with twin intercoolers ensures charge cooling. The engine also features the latest tandem solenoid intelligent Stop/Start system to reduce fuel consumption.

INGENIUM PETROL ENGINE

Si4 300PS

The new 4-cylinder 2.0 litre Si4 Petrol engine utilises cutting-edge innovations to enhance every aspect of performance. Technologies such as the Continuous Variable Valve Lift system, in combination with variable cam timing, delivers maximum efficiency, optimising both performance and fuel economy. The 300PS engine produces torque of up to 400Nm at 1,500-4,000 rpm and offers enhanced boosting technology through its turbocharger, featuring ceramic ball bearings and a high flow compressor wheel, an innovation ensuring the best possible launch performance and transient response while still delivering high peak power. The electronically controlled split flow cooling system improves engine warm up, resulting in lower fuel consumption and emissions.

PETROL ENGINE

Si6 340PS

A Roots-type twin vortex supercharger is mounted in the 'V' between the two rows of cylinders for compact dimensions. Supercharging provides linear delivery of power and maximises responsiveness. This results in performance matching much larger engines, while optimising economy and reducing emissions. The V6 engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance and efficiency. For added refinement there is a twin, contra-rotating balancer shaft system.

BODY AND CHASSIS

STRENGTH AND STABILITY

LIGHTWEIGHT CONSTRUCTION

With a state-of-the-art aluminium monocoque body, Discovery enjoys greater levels of performance, together with improved strength, sustainability and efficiency. At up to 460kg lighter than its predecessor*, it also benefits from a 4-cylinder engine which delivers improved fuel economy. Added to which, thanks to utilising the latest in materials and build technologies, the vehicle can readily take the knocks and impacts associated with off-road driving.

STATE-OF-THE-ART LIGHTWEIGHT SUSPENSION ARCHITECTURE

Another key factor in the driving capability of Discovery is the lightweight suspension architecture.

Primarily constructed from lightweight aluminium components, the suspension is fully independent, with a wide-spaced double-wishbone design at the front and an advanced multi-link layout at the rear.

The suspension concept is specifically developed to maximise Discovery's unrivalled breadth of capability, offering responsive and agile handling together with supreme ride quality and refinement.

To see the available suspension options on Discovery please see page 33.

SAFETY

OCCUPANT SAFETY PROTECTION

Discovery's optimised aluminium body structure protects occupants using an incredibly strong and stable safety cell. The crash structure is extensively optimised using computer simulation tools which allows engineers to conduct a significant number of 'virtual' crash tests long before physical prototypes are available.

The occupant safety package includes a comprehensive system of airbags and restraint systems including driver and passenger airbags, side curtain and thorax airbags and seat belt pretensioners¹.

Discovery features 6 airbags as standard and 8 airbags when seven seats are specified.

SEAT BELT PRETENSIONERS¹

Acting in conjunction with the airbags, they provide additional protection in the event of a front impact by reducing the forward movement of the occupant.

ISOFIX POINTS

Up to five¹ lower ISOFIX/i-Size mountings and associated top tether anchor points are featured on all three rows of seats². These provide optimum safety for the fixing of child restraints. Please check local market for availability as standard.

CURTAIN AIRBAGS WITH ROLLOVER SENSING

In the event of a side impact or rollover, these are deployed to provide greater protection against head injuries.

DRIVING AND PARKING SAFETY AIDS

Discovery has been designed with safety in mind. There are extensive driving and parking safety aids available including Blind Spot Assist, Park Assist and 360° Surround Camera. In addition, LED lights have been cleverly developed to wrap around the side of the vehicle to enable the indicators to be more visible to improve safety. Adaptive LED headlights, available as an option on SE, HSE and HSE Luxury, combine practicality with distinctive design. For more relaxed night-time driving, adaptive lighting varies the light cast ahead of the vehicle so that the beams follow the curve of the road.

To see the range of driving and parking safety aids available please see pages 48-53.

ENVIRONMENTAL

SUSTAINABILITY

Discovery demonstrates Land Rover's continuing commitment to enhancing the sustainable performance of its products and operations and its determination to deliver vehicles that are both relevant and highly desirable. For example, as part of our commitment to reducing our environmental footprint, our Engine Manufacturing Centre in the UK features over 22,000 solar panels – the largest roof-mounted solar-array in the country.

Discovery has been designed with a life cycle approach, aiming to use fewer resources, more environmentally sustainable materials and minimise the CO₂ emissions over the vehicle's entire life cycle. Its lightweight aluminium structure and optimised powertrains have reduced the environmental impact from material production and development, through to customer use.

Discovery is built in state-of-the-art manufacturing facilities operating to some of the highest environmental standards anywhere in the world. By focusing on innovation and efficiency in every aspect of its processes, the company has achieved a 30 percent¹ reduction in operational CO₂ per vehicle. Manufacturing waste to landfill has been reduced by 79 percent¹ per vehicle and water use reduced by 34 percent¹ per vehicle. Investment, commitment and focus in these areas continue to drive further efficiencies. Responsible resource management is integral to the company's long-term sustainability strategy.

LIGHTWEIGHT AND SUSTAINABLE MATERIALS

Discovery incorporates sustainable design with intelligent material choices. The use of aluminium in the body structure enables a 9 percent² reduction in CO₂ emissions over its life cycle.

Our closed-loop aluminium supply chain also ensures any surplus high-grade aluminium from our sheet stamping process is re-used. This reduces the need for primary aluminium production, conserving energy and reducing CO₂ emissions in material production whilst maintaining the highest quality aluminium for our vehicles.

Recycled materials have been used wherever possible, including up to 50 percent closed loop and recycled aluminium in the body. Discovery HSE Luxury models use over 19kg of recycled plastics in the instrument panel, wheel arch liners and bumpers, helping to divert over 7,850 tonnes of plastic from landfill during the vehicle's production life. The vehicle is designed to meet a requirement of 85 percent recyclability/re-usability and 95 percent recoverability at the end of the vehicle's life.

¹JLR Data 2014/15 vs. 2007.

EACH MODEL HAS A CHOICE OF UNIQUE FEATURES

This guide will help you to select your ideal Discovery. On the following pages you'll see the standard features for each model.

DISCOVERY S

- Brunel grille with Narvik Black surround
- Narvik Black fender vents
- Body-coloured door handles
- Brunel Discovery script (bonnet and tailgate)
- Anthracite tow eye covers
- Heated door mirrors
- Halogen headlights
- 19" 5 split-spoke 'Style 5021' alloy wheels¹
- 8-way manual fabric front seats

- Lane Keep Assist
- Cruise Control and Speed Limiter
- Front and Rear Parking Aid
- Rear Camera
- Driver Condition Monitor
- Sound System 125W with six speakers
- 10" Touch Pro
- Air conditioning.

DISCOVERY SE

Contents of S, plus:

- Ambient Interior Lighting
- Auto High Beam Assist (AHBA)
- 360° Parking Aid
- Park Assist
- Clear Exit Monitor
- Rear Traffic Monitor
- Rain sensing windscreen wipers
- Automatic headlights.

Replaces S content:

- Dark Atlas grille with Narvik Black surround
- Dark Atlas fender vent ingots with Narvik Black surround
- Dark Techno Silver tow eye covers
- Two-zone Climate Control
- Power fold, heated door mirrors with memory and approach lights
- Enhanced Sound System 250W with 10 speakers.
- LED headlights with signature Daytime Running Lights.

¹Si6 340PS S and SE models will feature 20" 5 split-spoke 'Style 5011' alloy wheels (not shown).

DISCOVERY HSE

Contents of SE, plus:

- Signature Hi-Line tail lights
- Keyless Entry
- Powered inner tailgate
- Adaptive Cruise Control with Stop & Go
- Blind Spot Assist
- High-speed Emergency Braking.

Replaces SE content:

- Atlas grille with Narvik Black surround
- Atlas fender vent ingots with Narvik Black surround
- White Silver tow eye covers
- Auto-dimming, power fold, heated door mirrors with memory and approach lights
- Three-zone Climate Control
- 20" 5 split-spoke 'Style 5011' alloy wheels²
- Interactive Driver Display
- Meridian™ Sound System 380W with 10 speakers plus a dual-channel subwoofer
- 12-way (10-way electric) memory grained leather front seats.

DISCOVERY HSE LUXURY

Contents of HSE, plus:

- Front fog lights
- Solar attenuating windscreen
- Sliding front sunroof and fixed rear panoramic roof
- Premium carpet mats.

Replaces HSE content:

- Atlas Discovery script (bonnet and tailgate)
- Body-coloured door handles with Atlas surround
- 20" 10 split-spoke 'Style 1011' alloy wheels
- Three-zone Climate Control
- Meridian™ Surround Sound System 825W with 14 speakers plus a dual-channel subwoofer
- Configurable Ambient Interior Lighting
- 16-way (14-way electric) memory Windsor leather front seats.

²Si6 340PS models will feature 20" 10 split-spoke 'Style 1011' (not shown).

PERSONALISING YOUR DISCOVERY

DYNAMIC DESIGN PACK

Bold. Arresting. Available on HSE and HSE Luxury models, this option allows you to enhance Discovery's recognisable design cues even further.

A unique front bumper design gives the exterior a sportier feel. Narvik Black features include the unique mesh grille, fender vents, Discovery bonnet and tailgate script, tailgate appliqué, and mirror caps to further enhance the appearance.

Carefully selected interior touches add to the impact of the three colourway choices available in Windsor leather, with premium details including contrast stitching and micropiping. Dark Brushed Aluminium centre stack side rails

and the distinctive Titanium Mesh trim finisher complete the look. The interior is further enhanced with bespoke premium carpet mats, Bright finish paddle shift and aluminium sport pedals. Please refer to page 99 for Dynamic Design Pack options.

To complement the Dynamic Design Pack, choose from our optional Designer's Choice 21" Satin Dark Grey or 22" Satin Dark Grey Diamond Turned finish alloy wheels, with the option to add a contrast roof* (see image on the left for an example). Other optional wheels are also available. See pages 108-109 for details.

Tailgate appliqué

Ebony seat with Light Oyster contrast micropiping

Titanium Mesh trim finisher

Optional Satin Dark Grey Diamond Turned finish alloy wheels

*Contrast roof colour is dependent on exterior paint colour. Please refer to pages 104-107 for availability. Body coloured roofs are also available.

PERSONALISING YOUR DISCOVERY

BLACK DESIGN PACK

For a striking effect Discovery can be personalised with the optional Black Design Pack on SE, HSE and HSE Luxury models. The Black Design Pack is available with all exterior colour options and includes a Narvik Black grille, fender vents and mirror caps, with Black 'DISCOVERY' bonnet and tailgate script.

To complement the Black Design Pack, choose from our optional Designer's Choice 20", 21" and 22"* Gloss Black alloy wheels. Other optional wheels are also available. See pages 108-109 for details.

Narvik Black grille

Optional Gloss Black alloy wheels

Narvik Black mirror caps

Narvik Black fender vents

*22" wheels only available on HSE and HSE Luxury models.

CHOOSE YOUR COLOUR

Now you have chosen your Discovery model, you can select your exterior paint colour. From rich, deep lustres to incandescent metallic patinas, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep flat colour. Our metallics deliver a sparkle finish that is sure to catch the eye. And our premium metallic paints enhance both the colour and the intensity of the sparkle, providing a sleek metallic finish to give your vehicle even more presence.

You can select either a body-coloured or contrast roof in Black or Grey to further enhance your vehicle's exterior. Metal and panoramic roofs available with all colour finishes.

CHOOSE YOUR INTERIOR – SEAT CONFIGURATION

Electrically Reclining Rear Seats

Available as an option on HSE and HSE Luxury with optional third row seats, these seats have forwards/backwards movement of 160mm allowing truly flexible use of space for luggage or to maximise passenger legroom. The seats also power recline up to 27° and allow for load-through to provide even greater comfort and convenience.

60:40 Manual Slide and Recline Seats (not shown)

The standard 60:40 five-seat configuration features three comfortable seating positions and load-through feature.

Seven Full-Size Seats with Stadium Seating

A neatly integrated optional third row of seats gives you even more versatility, with the third row easily accessed at the touch of a button. On HSE and HSE Luxury models, the third row has the option of heating,

a first for the segment, as well as the capability of power folding. Discovery makes light work of carrying you and six other adults in the most comfortable and contemporary surroundings.

CHOOSE YOUR INTERIOR – COLOUR COMBINATIONS

Now you have chosen your model, you can use this table to select the perfect combination of interior colour, exterior colour and interior finishers.

LAND ROVER GEAR – ACCESSORIES

Discovery is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Discovery to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalisation.

Importantly, these accessories can be added by your Land Rover Retailer at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

DESIGN

Loadspace Rigid Organiser System
VPLRS0355

Convenient loadspace organiser provides segregated compartments to stow wet, dirty or delicate items or separate shopping/luggage. The front and rear compartments also have flexible dividers to create smaller compartments within them. Featuring two lockable lids, it is secured via loadspace 'D' loops¹.

Stainless Steel Undershield – Front¹
VPLRP0254

Stainless Steel Undershield – Rear¹
VPLRP0255 – Non Tow Bar
VPLRP0256 – Tow Bar
VPLRP0257 – Electrically Deployable Tow Bar

The off-road designed undershield, manufactured from stainless steel, features a premium Bright Polished finish for the front and rear of the vehicle.

Sports Pedal Covers²
VPLGS0160

Stainless steel Bright finish sports pedal covers are easy to fit and feature hidden fixings for a clean finish.

Bright Side Tubes³
VPLRP0270

Highly polished stainless steel side tubes provide an off-road inspired appearance, designed to complement the vehicle's exterior design.

Deployable Side Steps³

These smart, practical steps make it easier to get in and out of the vehicle. Neatly stowed under the sills, the side steps automatically deploy as soon as the door is opened, or when activated by the key fob. They stop automatically when the door is closed. Please contact your nearest Land Rover Retailer for fitment options.

Fixed Side Steps
VPLRP0269

The side step aids entry and exit to the vehicle, improves access to the roof and also provides a rugged, off-road style to the vehicle. Features embossed 'Discovery' branding and bright metallic trim finish to complement the vehicle's exterior design cues.

¹Not available with Dynamic Design Pack. ²Standard as part of Complete Dynamic Design Pack with electronic air suspension.
³Fitting of side tubes and side steps may affect the off-road capability of the vehicle.

TOURING

Click and Go System
 VPLRS0388 – Click and Go Base
 VPLRS0389 – Click and Hook
 VPLRS0395 – Click and Work

Click and Go base required for all attachments. Click and Hook is a universal hook that creates extra storage space for items to be hung. Click and Work is a folding table especially useful on long journeys and offers the rear passengers a practical surface providing some office space and a cupholder.

Click and Go System
 VPLRS0390 – Click and Hang
 VPLRS0391 – Click and Play (iPad® 2 – 4)
 VPLRS0392 – Click and Play (iPad® Air)
 VPLRS0393 – Click and Play (iPad® Mini)
 VPLRS0394 – Click and Play Samsung Galaxy Tab (10,1")

Click and Hang is a removable coat hanger, allowing shirts and jackets to be kept crease-free whilst transporting. Click and Play is a removable tablet holder attachment which is available for various tablets, and can be easily positioned in multiple angles for in cabin comfort and rear entertainment.

Centre Armrest Cooler/Warmer Box
 VPLVS0176

Food and drinks chiller and warmer that acts as a rear centre armrest. With a leather-covered top, it is held in place by the centre seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Sunshades
 VPLRS0367 – Second row
 VPLRS0363 – Third row
 VPLRS0364 – Rear tailgate

Easy to install or remove, these sun blinds provide increased comfort helping to protect the interior from heat and glare of the sun.

Roof Rails¹
 VPLRR0156 – Silver
 VPLRR0155 – Black (not shown)

Roof rails facilitate easy fitment of cross bars for roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Maximum payload 80kg².

Cross Bars¹
 VPLRR0154

Easy to attach and remove lockable cross bars, in a durable bright finish aluminium. Aerodynamic profile minimises drag and wind noise. Incremental height of roof rails and cross bars when fitted is up to 110mm. Maximum load capacity 74kg².

Roof Box¹
 VPLWR0100 – Large Sports Roof Box¹
 VPLVR0062 – Luggage Box¹ (not shown)
 VPLVR0061 – Sports Roof Box¹ (not shown)

Available in a range of sizes, all versions can be mounted either side for kerbside opening in any country and include integral locks for security and peace of mind. Carrying capacity ranges from 320 litres for the Sports Box to the 410 litre Luggage Box or the capacious 430 litre Large Sports Box. Maximum payload 57kg².

SPORTING

Towing System – Detachable Tow Bar
VPLRT0171

Convenient and easy to use, the detachable tow bar ensures a clean look when not in use. 50mm tow ball. Approved for up to 3,500kg³ maximum towing capacity and 195kg³ nose weight. Towing electrics are included.

Towing System – Multi-Height Tow Bar
VPLRT0175

The multi-height tow bar contains a towing armature and slider plate. 50mm tow ball. Three different towing heights. Approved for up to 3,500kg³ maximum towing capacity and 350kg³ nose weight. Towing electrics are included.

VPLRT0172 – Towing System – Electrically Deployable Tow Bar
VPLRT0192 – Towing System – Electrically Deployable Tow Bar, Electrical Installation Kit

The electrically deployable tow bar is operated via a switch in the rear loadspace or by the infotainment system in the cabin. Stowed discreetly behind the rear bumper when not in use providing a clean attractive finish. The towing electrics are also hidden until deployed. Approved for up to 3,500kg³ maximum towing capacity and 350kg³ nose weight. Includes a unique trailer light test facility which allows the driver to check if the trailer lights are functioning correctly.

Tow Bar Mounted Bike Carrier
VPLVR0067 – 2 Bike Carrier⁴
VPLVR0069 – 3 Bike Carrier⁴ (not shown)

Tow bar mounted bike carrier available for two or three bikes. A quick release design for ease of use and lockable for security. Maximum load capacity 51kg (on the 3 bike carrier).

Ski/Snowboard Carrier¹
LR006849

Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading, is also lockable for security. Maximum payload 36kg².

Protective Seat Covers
VPLRS0335PVJ – First Row – Ebony
VPLRS0337LKP – First Row – Light Oyster
VPLRS0336PVJ – Second Row – Ebony (not shown)
VPLRS0338LKP – Second Row – Light Oyster (not shown)

Helps protect seats from mud, dirt, wear and tear. Easily fitted and wipeable.

Body Side Mouldings
VPLRP0286 – Bright finish
VPLRP0285 – Black finish (not shown)

Enhances the side of your vehicle and provides protection for your door panels from accidental damage by adjacent vehicles.

³Towing capability varies by powertrain. Towing nose weight dependent upon powertrain and wheels fitted. A tow eye cover must also be ordered when fitting detachable tow bar. ⁴Heat shield is required for 2 and 3 tow bar mounted bike carrier – VPLWR0124.

ACTIVE

Mirror covers
 VPLGB0073 – Noble Chrome
 VPLAB0132 – Chrome (not shown)

Noble Chrome plated mirror covers to enhance the vehicle's exterior design cues.

Loadspace Partition
 VPLRS0374 – Full Height
 VPLRS0375 – Half Height (not shown)
 VPLRS0376 – Luggage Partition Divider¹
 VPLRS0386 – Loadspace Liner Tray (not shown)

Designed to prevent luggage from entering the passenger compartment. The design of the luggage partition has been optimised to second row seating featuring tilt functionality. The Luggage Partition Divider can be fitted to the luggage partition to separate the loadspace into two sections. Semi-rigid waterproof loadspace liner tray with a raised lip on three sides to protect loadspace floor and side wall carpets from dirt or wet equipment.

Loadspace Rubber Mat²
 VPLRS0375PVJ – Ebony
 VPLRS0375AAM – Espresso (not shown)

The Land Rover branded waterproof rubber mat helps to protect the rear loadspace carpet from general dirt.

Passenger Footwell Net
 VPLRS0362PVJ – Ebony
 VPLRS0461AAM – Espresso (not shown)

The passenger footwell net provides additional storage space within the cabin. It is easily accessible and ideal for everyday small items such as maps and letters.

Mudflaps
 VPLRP0283 – Front
 VPLRP0357 – Rear

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Engineered to complement the vehicle exterior design.

Rubber Floor Mats
 VPLRS0333PVJ – Ebony
 VPLRS0333AAM – Espresso (not shown)

Rubber footwell mats help provide protection from general dirt.

OTHER

iPhone® Connect and Charge Dock
VPLRV0119

The iPhone Connect and Charge Dock has been designed to charge utilising the cup holder space in the central console. When connected, the iPhone's media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The 'cut-out' design of the holder is such that home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use. For use with iPhone 5, 5c, 5s, 6, 6s, SE and 7. Not suitable for use with 6 Plus or 7 Plus.

Wireless Phone Charging Cupholder³
VPLRV0118

The wireless phone charging cupholder has been designed to charge utilising the cup holder space in the centre console. The holder will accommodate varying phone sizes securely in place. The charger displays an LED light to indicate when charging, and turns off when complete. Fits phones up to 72mm wide.

Pet Pack with Mat Luggage Partition – Full Height
VPLCS0299

Full Height Loadspace Mat
VPLCS0279

Combines the loadspace rubber mat with the full height partition, to protect both your vehicle and your pet. The rubber mat is waterproof, protecting the vehicle's loadspace floor carpet. The full height partition prevents access to the passenger compartment, while safely containing and protecting your pet.

Snow Traction System
VPLGW0081

Snow traction system is designed to give improved steering and braking control on snow and ice, when fitted to front wheels. Easy-fit design, manufactured from high quality hardened galvanised steel, the chains are supplied in a tough vinyl carry bag for storage when not in use. Suitable for 19-21" wheels.

Aqua Sports Carrier⁴
VPLGR0107

Aqua Sports Carrier – 2 Kayaks (not shown)⁴
VPLWR0099

Carries one sailboard, canoe or kayak (2 Kayak Carrier carries two kayaks or canoes). Includes lockable multi-purpose holder to carry oars or paddles. Tilts to facilitate easy loading/unloading. Features lockable straps and rubber supports to maintain optimum weight distribution whilst protecting the kayak and vehicle from scratches/scuffs. Maximum load capacity 45kg.

Versatile Roof Rack⁴
VPLRR0153

The versatile roof rack has a lightweight and fully integrated design which provides a large volume carrying capacity. When fitted maximum load capacity 60kg⁵.

³The wireless phone charging cupholder does not provide a connection to InControl Apps. ⁴Roof rails and cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. ⁵Maximum payload equals the load capacity of the roof mounted accessory. iPhone® is a registered trademark of Apple Inc., registered in the US and other countries.

DIMENSIONS AND CAPABILITIES

Standard Ride Height

With roof antenna 1,888mm

Headroom

Maximum front headroom with panoramic roof 1,016mm
Rear headroom 991mm

Loadspace Capacity

Rear seats upright
Height 939mm, Width 1,411mm
Maximum loadspace volume 1,137 litres
Maximum length at floor 1,119mm

Rear seats folded
Length behind first row 1,963mm
Height 939mm, Width 1,411mm
Maximum loadspace volume 2,406 litres
Maximum length at floor 1,963mm

Obstacle Clearance

Air suspension 283mm
Coil suspension 215mm

Turning Circle

Kerb-to-kerb 12.4m
Wall-to-wall 12.4m
Turns lock-to-lock 2.7

Wading Depth*

Maximum wading depth
Air suspension 900mm
Coil suspension 850mm

Width 2,073mm mirrors folded
Width 2,220mm mirrors out

Front wheel track
Air suspension 1,692mm
Coil suspension 1,689mm

Rear wheel track
Air suspension 1,687mm
Coil suspension 1,685mm

WORLD OF LAND ROVER

Your Land Rover has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can't reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we've put together a range of experiences, publications and Land Rover branded goods. There's a world to explore. Get out there and enjoy it.

ADVENTURE DRIVES

From the sheer exhilaration of the Arctic ice to the awe-inspiring dunes of Namibia, Land Rover Adventure Drives offer you once-in-a-lifetime experiences that bring the spirit and emotion of our vehicles to life.

Search 'Land Rover Adventure Travel' for full details.

EXPERIENCE DRIVES

Get behind the wheel of the latest Land Rovers under the expert guidance of our qualified instructors. From Taster Drives to advanced Full Day experiences, there's a wide range available at one of the expanding network of Experience Centres across the world.

Search 'Land Rover Experience' for full details.

MANUFACTURING TOURS

These behind-the-scenes tours are a unique opportunity to step inside our state-of-the-art manufacturing facilities where the latest Land Rovers are born. This combination of unrivalled craftsmanship and cutting-edge robotics can be seen at either Halewood or Solihull.

Search 'Land Rover Behind the Scenes' for full details.

BRAND PARTNERSHIPS

Integrity, courage, pride, composure and capability; these are the values Land Rover shares with its partners. Whether the International Federation of Red Cross and Red Crescent Societies (IFRC), Rugby World Cup 2019™ or Virgin Galactic, each one is driven by exceptional people prepared to face extreme challenges and push their capabilities to the very limits.

Search 'Land Rover Partnerships' for full details.

ONELIFE MAGAZINE

Free twice a year for your first three years as a Land Rover owner, this award-winning magazine features the best in photography, authoritative journalism and expert insights. Onelife takes you right into the heart of exclusive experiences and extraordinary adventures, whilst keeping you up to date with the latest innovations, design and lifestyle choices.

Search 'Land Rover Featured Articles' for full details.

HUMANITARIAN PARTNERSHIPS

Since 1954, Land Rover have supported the International Federation of Red Cross and Red Crescent Societies in reaching 150 million people needing aid in 189 National Societies.

Search 'Land Rover Responsibility' for full details.

LAND ROVER COLLECTION

Our latest range of clothing and luxury leather goods is crafted with the same design excellence and attention to detail as our vehicles. We also have a collection that honours Land Rover's unique heritage and features expedition-inspired gifts and apparel.

Search 'Land Rover Collection' for full details or visit your local Land Rover Retailer.

YOUR PEACE OF MIND

CUSTOMER SERVICE

When you bring your Land Rover to us, we use cutting-edge diagnostic equipment to assess all your vehicle's mechanical and electronic systems. Our qualified Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and Gear accessories. A choice of service plans are available which, together with Roadside Assistance, ensures complete peace of mind.

For further details contact your local Land Rover Retailer or search 'Land Rover Ownership'.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Approved Service Centre or search 'Land Rover Roadside Assistance'.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.

For further details contact your local Land Rover Retailer or search 'Land Rover Finance'.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy and CO₂ emissions.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

Search 'Land Rover Fleet and Business' for full details.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories and alterations take place continually.
