### DS CONNECTED PILOT: SEMI-AUTONOMOUS DRIVING

DS CONNECTED PILOT is a driver assistance function that takes us one step closer to autonomous driving. This innovative aid automatically regulates speed in relation to the vehicle ahead and controls the steering to keep DS 7 CROSSBACK in the middle of its lane. You can activate it at up to 112mph (depending on local road laws). It makes for driving that's safer and less stressful in traffic jams or on motorways.

### DS DELIVERY VALET

YOUR TIME IS OUR PRIORITY

DS DELIVERY VALET allows you to benefit from the delivery of your new or used DS to the address of your choice and collection of your old vehicle.

PRICE: £195 inc. VAT

From January 2019 all models are Type Approved according to Worldwide Harmonised Light-Duty Vehicles Test Procedure (WLTP). WLTP is the new official test regime and replaces the New European Driving Cycle (NEDC). The CO<sub>2</sub> data has been converted from WLTP back to NEDC-equivalent values in accordance with current vehicle tax and Company Car Tax (CCT) legislation. Two values for CO<sub>2</sub> are shown per version, these are the 'Vehicle High' value and the 'Vehicle Low' value. For transparency and clarity, the 'Vehicle High' value has been used to calculate the first year taxation in the prices shown above. The actual CO<sub>2</sub> value of a version may vary according to optional equipment fitted but, other than in exceptional circumstances, will be between 'Vehicle High' and 'Vehicle Low'. For full information, including WLTP fuel consumption data, please see technical specification pages, or refer to your nearest DS retailer. \*An additional annual tax rate applies in years 2 to 6 for vehicles with a list price (which includes basic price, VAT, delivery cost and additional options) in excess of £40,000. <sup>1</sup>Vehicle High = High specifications vehicle fitted with maximum available options. <sup>2</sup>Vehicle Low = Standard specifications vehicle fitted with minimal options. All diesel engines are fitted with a Diesel Particulate Filter System. Insurance groups (1-50) are an indication only, please consult your insurance company for further details. \*The Manufacturer's 'On The Road' Recommended Retail Price includes the following; Delivery to Dealer and Number Plates £583.33, V.A.T. £116.67, Government First Registration Fee £55 and Graduated Vehicle Excise Duty. Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

## DS ACTIVE LED VISION

The headlights on DS 7 CROSSBACK feature full LED technology. Each one comprises three rotating modules with an animated "Magic 3D" function and a main LED projector. They also include the Adaptive Front System (AFS), a function designed to adapt the lighting to the road. This modern technology contributes to both comfort and safety through its variable power, clear visibility and immediate activation with clear, automatic signals.

At night, the Adaptive Front System function manages different lighting modes for each driving situation. For each one, the angle and intensity of the main headlights and modules vary in order to increase or reduce the range of the beam. The modules swivel and dip to widen or direct the beam to light up the roadside to a greater or lesser extent. This function is active only if the lighting is in automatic mode and can be deactivated via the central touchscreen.

### TOWN BEAM

The projector beams are of medium intensity with the modules turned outwards. This makes the beam wider, enabling the driver to see potential hazards (such as pedestrians, junctions, etc.) on the roadside more easily. The beam range is 280m. This lighting mode is activated after three seconds at a speed below 30mph.

### COUNTRY BEAM

The beam is straighter with intensity increased for the projectors and reduced for the modules. In this way, the field of vision is directed towards the front (better suited to country roads), while being sufficiently wide to see any potential sources of danger on the roadside. The beam range is 330m. This lighting mode is activated after two seconds at a vehicle speed of over 30mph.

### MOTORWAY BEAM

The projectors and modules create a cone of light with a raised beam, suitable for fast roads. Although similar to Country Beam, the modules create a more intense beam. The projectors and modules are raised slightly in order to increase range. The beam range is 370m. This lighting mode is activated after five seconds at a vehicle speed of 70mph.

### HIGH BEAM

This lighting mode can be activated at any time by the Automatic High Beam function, independently of the Adaptive Front System functions. It adapts automatically to the vehicle speed and angle of the steering wheel.

The power and range of the beam are set to maximum in order to effectively light up the length and breadth of the road. The modules are raised and positioned centrally, in line with the vehicle. At the same time, their range is increased. The beam range is 520m.

### ADVERSE WEATHER

This lighting mode is activated automatically at any time, when the wipers are activated. The beam is wider. The power of the modules is increased to enable the driver to see the white lines on the road more easily.

The intensity of the main beam is reduced in order to improve the driver's vision, taking into account possible reflections from the wet road. The beam range is 330m.

## WELCOME LIGHTING

### LOCKING/UNLOCKING

When the driver unlocks the vehicle using the plip or keyless access function, the vehicle initiates a "Welcome" sequence. The headlights and modules give off a purple light, as if the car were waking up.

### FOLLOW ME HOME

The automatic 'Follow me Home' lighting function leaves the headlights illuminated for a short time after the vehicle is locked, in order to light a path for passengers at night.

### LOCATION

This lighting function allows you to activate the headlights and indicators to help you find your car, for instance in a crowded car park.

### MARKER LIGHTS

When stopping at the road side, this lighting function makes sure other road users can see you clearly. The LED Daytime Running Lights and 3D rear lights are activated on the road side.

### SCROLLING INDICATORS

These distinctive, high-tech features underline the expressive looks of DS 7 CROSSBACK's light signature. They comprise a line of LEDs scrolling in segments towards the outside, in the direction of travel. They also include a one-touch activation function.

# NEW GENERATION OF DRIVING AIDS

## DS NIGHT VISION\*

Using the infrared camera in the radiator grille, DS NIGHT VISION\* improves visibility during the night.

This new technology is able to identify pedestrians and animals over 50cm tall up to a distance of 100m. Added to this, increased light intensity improves overall visibility up to 300m in front.

The digital instrument panel clearly displays the situation in front of the vehicle (in greyscale) for the driver. Hazards are highlighted in yellow, changing to red as they get closer.

This technology identifies pedestrians and animals on the road during the night.

All sources of danger which are in movement are over lined in red on the instrument cluster in order to warn and alert the driver about their presence.

DS 7 CROSSBACK is the first vehicle in the C-SUV segment to make this technology available.

## EXTENDED TRAFFIC SIGN RECOGNITION\*\*

This system recognises speed signs along with a number of other traffic signs and displays them on the instrument panel for the driver. This function contributes to enforcing the highway code as well as increasing safety. The signs recognised include Stop, One Way, No overtaking, End of no overtaking.

This system recognises speed signs along with a number of other traffic signs and displays them on the instrument panel.

\* Part of the DS NIGHT VISION Pack.  
\*\* Part of the Advanced Safety Pack.

## DS ACTIVE SCAN SUSPENSION

DS ACTIVE SCAN SUSPENSION\* analyses the road ahead and adjusts automatically, making DS 7 CROSSBACK able to handle imperfections in the road's surface with ease.

This innovative technology employs a camera placed behind the windscreen connected electronically to the front and rear axles. This works with four height sensors and three accelerometers to gauge DS 7 CROSSBACK's reactions such as speed, steering wheel angle and braking.

Data is transmitted in real time to an electronic control unit, which governs each wheel independently.

Based on this data, the control unit is continually making the suspension firmer or softer.

DS ACTIVE SCAN SUSPENSION uses swift reactions and finesse to improve comfort on the move and create a unique, smooth driving experience.

DS ACTIVE SCAN SUSPENSION is a world première: a DS innovation, available exclusively on DS 7 CROSSBACK

This function is available between 8mph and 70mph and has three different modes:

- Sports
- Normal (this is the default mode)
- Comfort Camera

The DS ACTIVE SCAN SUSPENSION is linked to the DS SENSORIAL DRIVE option.

\* Availability depending on versions. Please refer to the specifications pages for more details

## DS CONNECTED PILOT

DS CONNECTED PILOT is a step closer to autonomous driving, but still allows you to retake full control of the car at any point. The innovative system regulates the speed and distance in relation to the vehicle in front, while the Stop & Go function allows DS 7 CROSSBACK to come to a complete stop, and set off again.

Lane Keeping Assist works in conjunction to position DS 7 CROSSBACK precisely in its lane by controlling the steering. This system is particularly well suited to motorways, provided that the white lines are clearly visible. While the driver must still remain focused on the road ahead, it makes for driving that's safer and less stressful.

The driver enters a reference speed in the Adaptive Cruise Control Stop & Go (from 20 mph), and activates the Lane Keeping Assist using a button on the right of the dashboard.

To remain active, the system requires the driver to keep his/hers hands on the steering wheel, even without the need to steer.

The driver can take back control at any time by applying torque to the steering wheel (to cancel Lane Keeping Assist), pressing the button to deactivate the function or braking (cancels Active Cruise Control Stop & Go).

This system combines the new Adaptive Cruise Control Stop & Go and the Lane Keeping Assist (Part of the Premium Safety Pack) to manage driving in semi-autonomous mode, in specific conditions. The vehicle manages steering and speed.

DS 7 CROSSBACK is the first vehicle in the C-SUV segment to make this technology available.

## DISCOVER MyDS APP

### A MOBILE APP CONNECTED TO YOUR DS

A carefully designed App which lets you connect with your DS and its everyday surroundings, before, during or after driving it.

## ENHANCE YOUR DRIVING EXPERIENCE

MyDS App has been designed to allow you to connect to your DS, its environment, and the world of bespoke DS Only You services whenever you want. Each of the technologies available in your DS or smartphone will let you extend the driving experience before, during and after each journey.

### MANAGE YOUR JOURNEYS

MyDS App keeps a history of your journeys. It allows you to see how far you travelled, and how much you spent on fuel. It is the perfect solution for monitoring your fuel consumption, or claiming expenses if you drive for work.

### LOCATE YOUR DS

- MyDS App remembers where you parked your car.
- Whether you've parked in the city, or at a festival, you'll be able to find your DS with ease.

### SERVICING REMINDERS

- MyDS App will notify you when your next service is due.
- You can book your service directly from the app.

### STAY UP TO DATE

- Receive the latest news and offers from DS Automobiles.
- If you own more than one DS, you can manage multiple vehicles from the same app.
- Manage updates for your satellite navigation.

### ACCESS TO DS ONLY YOU SERVICES

MyDS App also allows you to access to exclusive DS Only You services:

- Find your local DS Store or Salon.
- Book your next service appointment. Choose to have DS collect and deliver your car, with DS Delivery Valet.
- Join DS Club Privilege, exclusive to owners of DS vehicles.
- Access exclusive events, discounts and unique experiences.
- DS at your service\* and DS Assistance phone number.
- Enjoy occasional vehicle rental with DS Rent\*.

### SCAN MyDS APP

Access your digital DS handbook with your smartphone with the Scan **MyDS App**.

1. Download the digital handbook on your smartphone.
2. Point your smartphone's camera at any part of your DS, and the Scan MyDS App will display the relevant information from your handbook.

\* Coming soon.

# ONLY YOU

THE DS EXPERIENCE

## MAKE THE CHOICE OF DS EXCELLENCE

Inspired by you and created for you, Only You is an exclusive programme offering services tailored to your personal needs. Enjoy a tailor-made programme for a unique DS experience.

Your Only You services are directly accessible via MyDS App, or by using the dedicated telephone number\*.

0800 877 8455

Available Monday to Saturday 8am to 6pm.  
A DS representative will answer your questions and deal with your requests.

\*Calls are free from a landline. For mobiles please refer to your service provider for charges.

TEL 0800 877 8455 MyDS APP

### MyDS App

CONNECT TO EXCLUSIVE SERVICES

#### MyDS APP, THE KEY TO YOUR DS UNIVERSE

A driving partner that's always ready to help, MyDS App gives you direct access to the exclusive Only You services package and allows you to stay permanently connected to your DS. Compatible with all DS models.

### DS CLUB PRIVILEGE

ENTER A WORLD OF REFINEMENT

#### PREFERENTIAL ACCESS TO NEW EXPERIENCES

To drive a DS is to enter a world of French excellence and refinement. For an unforgettable experience, DS has created the DS Club Privilege. To benefit from your five-year membership, simply register via MyDS App. Available directly on your smartphone, this exclusive world puts your desires centre stage.

### DS RENT

TURN EACH TRIP INTO AN EXCLUSIVE EXPERIENCE

#### DS SHORT-TERM RENTAL

Continue the experience by renting a DS and take advantage of your journeys to try a new vehicle from the DS range by booking directly on your smartphone via MyDS App, in the DS network or on DSrent.co.uk.

### DS ASSISTANCE

DRIVE WITH PEACE OF MIND

#### 3 YEARS OF FREE ASSISTANCE 24/7

To take the stress out of driving, DS goes the extra mile to make your life easier and ensure you are always mobile. Whether you have an accident, break down, lose your keys or put the wrong fuel in the tank, DS Assistance offers free 24/7 assistance in UK and abroad, available via the DS Connect Box button of your vehicle, on MyDS App or by calling 00 800 24 24 07 07.

### DS VALET

YOUR TIME IS OUR PRIORITY

#### HAVE A VALET TAKE CARE OF YOUR VEHICLE

Time is what you have most precious. That's why DS has created the DS Valet experience especially for you.

During regular maintenance checks at one of our service centres or when purchasing a DS, this new service makes a personal car valet available for your daily trips.

**DS SERVICE VALET:** Pick-up and/or delivery of your DS for regular maintenance check.

**DS DELIVERY VALET:** Delivery of your new or used DS to the address of your choice and collection of your old vehicle. £195 OTR.

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

<sup>1</sup>Efficient Automatic Transmission with 8 speeds \* Please note: the maximum plated weights must not be exceeded.

\* The grouped figures shown above show the lowest and highest performing results for this model. Consult your dealer for information on specific examples. The fuel consumption you achieve, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO<sub>2</sub> figures. These CO<sub>2</sub> figures, however, are based on the outgoing test cycle NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These figures are used to calculate tax for first registration. You should only compare fuel consumption and CO<sub>2</sub> figures with other vehicles tested using the same technical standard.

# DS CARE FOR CAR AND DRIVER

\*The delivery charge includes all miscellaneous charges, including the supply and fitment of registration plates etc.

## COMPREHENSIVE WARRANTY

Every new DS car offers the benefit of a three year<sup>1</sup> warranty package, plus a 12 year anti-perforation<sup>2</sup> warranty and a three year paint warranty.

<sup>1</sup> Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Retailer provided warranty, only on cars sourced from DS AUTOMOBILES. Note: Retailer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).

<sup>2</sup> Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a DS franchised Retailer every two years from its fourth anniversary.

## DS ASSISTANCE

In response to a free telephone call in the UK, DS Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for three years, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional DS Assistance via your local DS dealer at any time. DS Assistance applies to incidents covered by the new vehicle warranty, and non-vehicle faults, such as running out of fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures / wheel changes.
