

Q2

#untaggable

Essentially unmistakable: a lot will change with the all-new Audi Q2. It's smart, customised, confident and impossible to categorise.

It is #untaggable. Because your own ideas show the way, whether in town or off the beaten track, in everyday life or off the clock. The vehicle concept for this newcomer comprises numerous innovative technologies and a new, impressive style.

#adventureproof

Even if the Audi Q2 leaves plenty of room for interpretation, the feel of the drive is extremely precise. The progressive steering gives the vehicle more agility and reduces steering effort round tight bends and during parking.

The optional quattro permanent all-wheel drive makes driving even more controlled. Variably distributing drive force to the axles increases traction, which in turn ensures more safety and sportiness. Whichever direction you take, you'll experience complete independence.

Anyone who drives an Audi Q2 will experience how exciting driving dynamics can be. This is thanks in particular to the optional suspension with damper control and Audi drive select, which adapts the vehicle's character to your personal preferences – thus making either a more intensive or more efficient driving style possible.

Because #untaggable means always having the choice.

#typicallydifferent

The Audi Q2 expresses the passion of being on the road. Because with every journey we take, we tend to free ourselves from old patterns. The Audi Q2 combines the classic Audi strengths with new and exciting ideas – both in design and technology.

You can give the Q2 many names, but all that really counts is what you feel when driving

A person in a white jacket and dark pants is walking across a cobblestone street. The background features a mix of old brick buildings and modern white structures under a clear blue sky. Bare trees are visible, suggesting a cool season. A circular 'no parking' sign is on a pole. The overall scene is bright and clear.

#nowfuture

It's difficult to imagine the future. But the Audi Q2 will show you precisely what counts in modern mobility.

Thanks to the optional Wi-Fi hotspot and SIM card permanently installed in the vehicle, you can continue to use your mobile devices as usual. And you will enjoy every trip even more with the versatile range of infotainment features as well as the optional Bang & Olufsen Sound System.

#realvision

Don't concentrate on what others say, concentrate on what's important. The optional Audi virtual cockpit can help you here – intuitively and fully digitally. You get all the information you need where you need it: always at eye level.

The same goes for the head-up display, available on request, which projects the most important information and notifications directly into the driver's field of vision. The 3D map representation for the optional MMI navigation plus also ensures a comprehensive overview on an 8.3-inch colour display.

In addition, many of your favourite apps are only a click away thanks to the optional Audi smartphone interface. While others are still trying to classify the Audi Q2, you already know where you're going.

#newcomerlegend

You don't need a second look to see the Audi Q2 as a real Audi - and yet it's hard to keep your eyes off it. Its look is powerful, dynamic and radiates presence. The polygonal vehicle shoulders accentuate the large wheel arches. No matter what path the Q2 takes - it's going its own way.

#untaggable also means taking your own individuality as the benchmark. The blade of the C-pillar emphasises the coupé character of the Audi Q2.

No matter how you look at it, the Audi Q2 is a space unto itself. A brand new line design, created specially for the Q2, culminates in corners and edges at a streamlined rear end. The body has become more athletic. Follow your own line and take the path less travelled.

#sportchic

Don't just emphasise the sport character of the Audi Q2 - enhance it. The optional S line exterior package further accentuates the Audi Q2's dynamic body line and uses exciting details to create special highlights.

Side sill trims in a striking sporty design

Illuminated door sill trims with aluminium inlays and S emblem

Rear bumper as well as diffuser insert painted in platinum grey, chrome-plated trims for exhaust tailpipes (single or twin depending on engine version)

Radiator grille in platinum grey, matt, front bumper and side sill trims in a striking sport design as well as S line emblem on the front wings

Decorative trims interior (dashboard, interior mirror and centre console) and interior plus decorative trims (door trim and door pull handles) both in Misano red, pearl effect, or in additional colours and versions

The optional Audi virtual cockpit with 8.3-inch colour display

Inlays in innovative light graphic format

The optional Audi Car Play

#accentedunaccented

Select the paint colour that best suits your personality.

And be assured that the quality will be superb.

Because the Audi Q2 is painted not just once, but four times.

Guaranteeing a radiant appearance and providing protection from the environment and wear.

Ensuring that the car maintains a powerful look throughout its entire lifetime.
