Passion for life

New Renault CAPTUR

Urban adventure

Start celebrating, city people: Renault Captur, the popular crossover, has had a makeover. With its new colours, redesigned grille with finely-chromed edging and 17" alloy wheels, New Renault Captur is geared toward urban adventurers like never before. Its Full LED Pure Vision lights and its C-shaped daytime running lights show its assertive, determined character.

Strong design

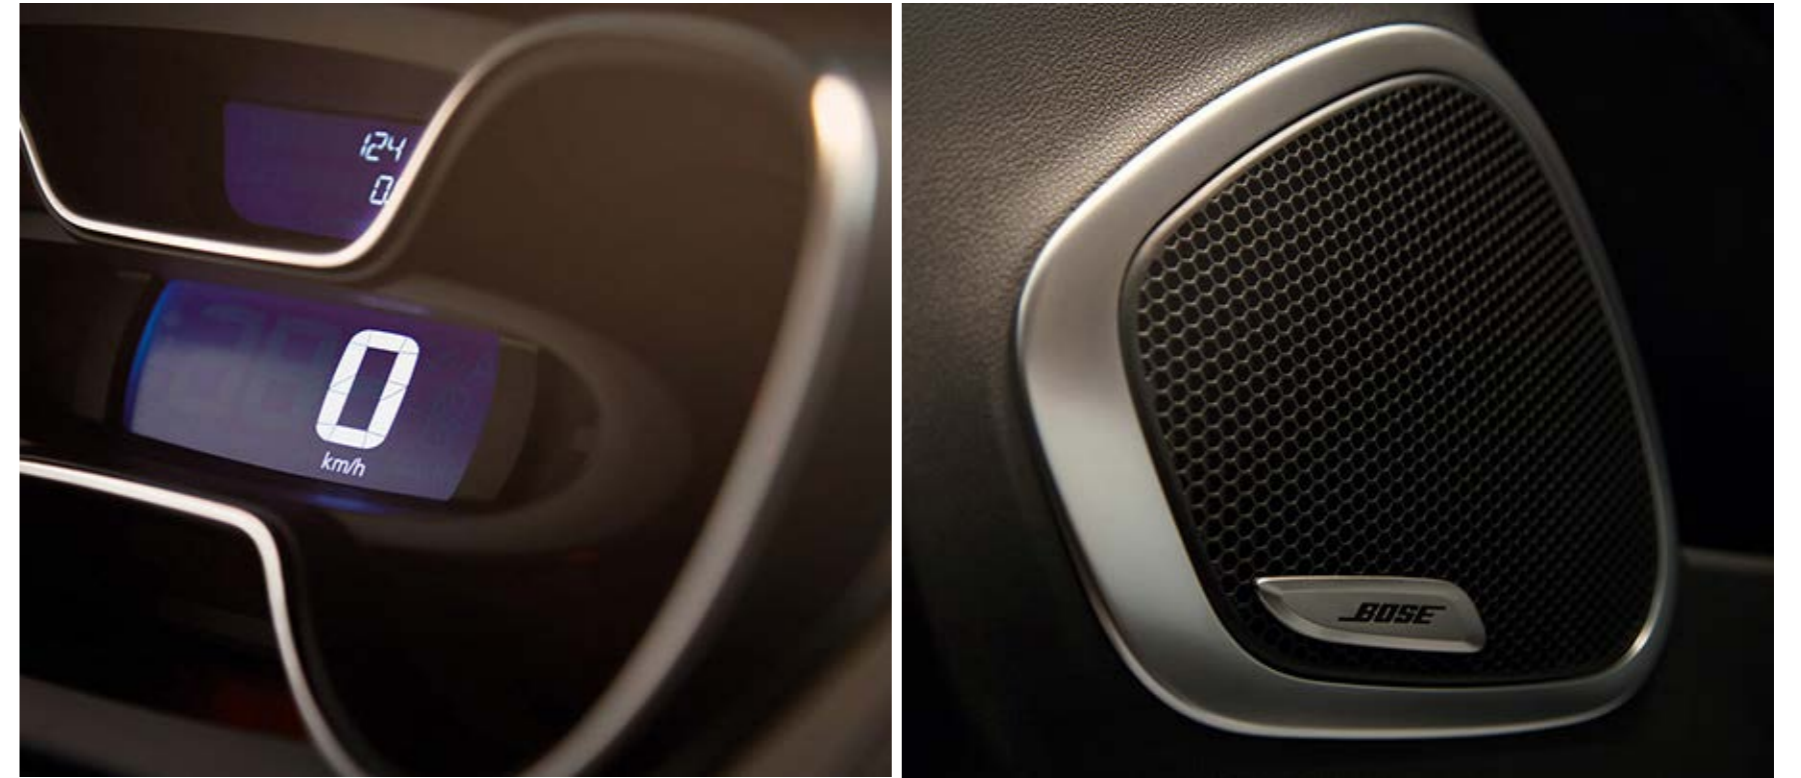

With its new 17" Emotion alloy wheels, New Renault Captur is ready to take you on the urban excursions of your dreams. Your crossover boasts an assertive character, with a finely-honed design and strong personality. Its front and rear LED lights shed a new light on your everyday life. Its two-tone bodywork and wide range of customizable features let you fully express your individuality. New Captur enhances your city experience.

A smart interior

New Renault Captur has everything you need to feel good. Place your hands on the full-grain leather steering wheel, enjoy the new comfort of the more supportive seats, rest your arm on the central armrest or take advantage of the LED courtesy lighting, featuring reading lights. All around you, the colours are understated and elegant, the chrome trim both discrete and attractive. The Bose® Sound System gives you an exceptional listening experience with its six high-definition speakers. Let it take you away.

Making life easier for you

With its many, cleverly-designed storage spaces, New Renault Captur makes your everyday life easier. A huge drawer with storage capacity of 11 litres lets you store small and large items. Carefully integrated in the dashboard is another handy storage compartment, where you can keep your mobile phone or wallet! The passenger compartment features a modular, 1/3-2/3 split-fold sliding rear bench seat with three places, meaning you can adjust the space whenever you like, depending on your needs. As for the boot,* it comes with a multi-position floor that can be removed and reversed.**

*From 359 dm³ to 455 dm³ when the bench seat is in forward position. ** Depending on the version.

Touch & explore

New Renault Captur offers you three fully touch-sensitive multimedia systems: R&Go and R-LINK Evolution.

R&Go, the new application: by simply connecting your smartphone to the car radio, you can access the R&Go functions: Six icons let you follow an itinerary, control the driving mode, manage the radio, safely make and receive phone calls, etc.

With its 7" touchscreen, intuitive voice control and steering wheel-mounted controls, Renault R-LINK Evolution lets you access innovative, practical features, including TomTom navigation, multimedia, a telephone system, and vehicle data.

With Android Auto™*, you can access your smartphone's driving-compatible applications from the R-LINK Evolution screen.

Find out more at www.renault-multimedia.com
Get the MY Renault and R&Go applications on Google Play and the Apple Store.

* Depending on the country.

Accessories

Design and customisation

1. Side steps. Go off-road and treat yourself to an adventurer style... These handy steps make it easier to access your vehicle and the roof. They also protect the bodywork from minor, everyday impacts.

2. Boot sill. Cover and protect the rear bumper with an aesthetically appealing and made-to-measure accessory. It adds a stylish touch to the rear of your vehicle.

3. Shark aerial – Starry Black. Add a touch of elegance with this aerial that is perfectly integrated into the line of your vehicle.

Comfort and protection

4. EasyFlex modular boot protection. Essential for protecting the boot of your vehicle and transporting bulky and dirty items! It folds and unfolds very easily, adapting to the position of the rear seats. Once completely unfolded, it covers the entire loading space. Versatile and practical, for daily use and for leisure activities.

5. Premium textile floor mats. Add a further touch of refinement to your vehicle. Made-to-measure and customised, they are quickly attached using safety clips provided for this purpose. Subjected to very demanding tests, they guarantee the highest level of quality, safety and durability. Treat yourself with the quality of top-of-the-range materials.

Safety and transport

6. Tool-free removable towbar. Essential for safely towing or transporting your equipment – e.g. bicycle rack, trailer, boat, caravan, or professional gear... As an official Renault accessory, it is fully compatible with your vehicle. Its ball joint can be easily removed without tools, ensuring the aesthetic appearance of your vehicle is maintained. Recommended for frequent use.

7. Roof bars. Ideal for transporting a bicycle rack, ski rack or roof locker and therefore increasing the vehicle's loading capacity. This official Renault accessory meets requirements well above safety and resistance standards. Set of two bars with anti-theft protection.

8. Parking sensors. Essential for peace of mind when parking your vehicle. Using its perfectly integrated sensors, the system detects all obstacles behind the vehicle. You are alerted by an audible warning that can also be deactivated.
